

# THE ARAB-BRITISH EXPORT CLUB

## Opportunities in Sudan

Wednesday 29<sup>th</sup> September 2010, 3.30pm for 4.00pm–6.00pm, followed by a networking reception.  
43 Upper Grosvenor Street, London W1K 2NJ

Sudan is the largest country in Africa and offers profitable business opportunities for companies willing to undertake the preparation and sustained sales effort needed for success. Investment opportunities exist in sectors such as agriculture, energy, mining, construction and infrastructure.

Sudan is endowed with rich natural resources, including oil, and has been emerging as a significant oil producer. Although the oil sector is still modest in terms of overall economic output, its impact on the country's economic prospects has been substantial. According to the IMF oil accounts for some 93% of exports and some 50% of domestic revenue in 2009.

Promoting investment is seen as essential to future growth and development. Prior to the global financial crisis, the economy had been one of the fastest growing in the world. Nominal GDP grew from \$9.9 billion in 1980 to \$57.9bn in 2008, according to the IMF.

I will attend on the 29<sup>th</sup> September 2010. Please send me details of future Chamber activities  
Attendance is free of charge.
