Chamber International - simplifying international trade

Breaking new ground

e-Cert is a fast, cost effective service that allows companies to apply for export documents online.

Not only can you apply online, but with e-Cert your documents can be checked, approved, stamped by the Chamber and returned to your inbox in a matter of minutes.

Any mistakes or inaccuracies can be remedied immediately without the need to return documents to you for amendment. The service saves hours, even days, for time-pressed export companies and freight agents.

More than 600 companies throughout the region have seen the savings that can be made by switching to e-Cert. Registration takes a matter of minutes.

Key benefits:-

- Choice of export document templates
- Supported by a database - no more re-keying the same information
- Mistake free documents - no more amendment stamps or risk of query
- Repeat applications can be 'copied and pasted'
- No special training required - online help and tutorials
- Professional looking documents
- No more risking the postal system for important documents
- Standard service or 'within the hour - eXpress'
- Helpline to the Chamber International team
- On-site training and support if required

eXpress documents within minutes

Select from:-

- European Community Certificates of Origin
- Arab-British Certificates of Origin
